### Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

#### A Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

#### B Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

#### C Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

### Define your problem statement

To develop an end-to-end web application capable of displaying the current job openings based on the user skillset.

🕒 5 minutes

**PROBLEM**  
How might we [your problem statement]?

#### Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

2

### Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

**TIP**  
You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

1. Collecting the Datas of patients with a age limit who are all having heart disease and severity of of that disease.	1. Cleaning the collected data by removing the unnecessary information, which will make the output clean and neat and there will be less ambiguity.	1. Processing the cleaned data according to the requirement. The data processing will be done based on some named algorithms which will predict the exact output.	1. Displaying the data which is processed by the named algorithms accorting the user needs. The datas will be displayed using graphs.

3

### Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

🕒 20 minutes

#### Job Recommendations
